

MAKE a MOOOVE!

Think fast and yell first

A game by Gali Shimoni
Number of players: 2-5
Age: 5+

Contents

40 game cards with images of: Pears, Strawberries, Pineapples, Bananas, Oranges and Apples.
4 game dice: 2 dice with fruit images, 1 dice with numbers and 1 dice with animal images.

Object of the game

To be the player with the most cards by the end of the game.

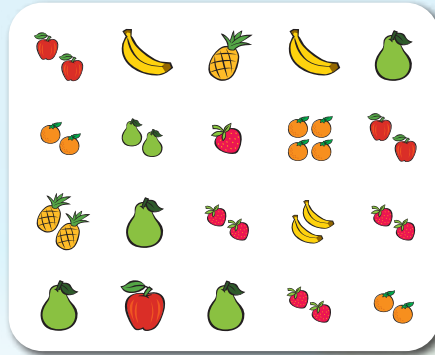

How to play?

All cards are placed in a pile face down.
One of the players rolls the dice and all players take a look at them:

Animals dice Fruit dice Fruit dice Numbers dice

Then, a card from the pile is flipped over.
For example:

Note that every fruit may appear from 3 to 8 times on each card. On the card in this example there are 3 pineapples, 4 bananas, 5 apples, 6 pears, 7 strawberries and 8 oranges.

There are 3 possible ways for players to win this card:

Setting #1 - The fruit on the card that corresponds to the number dice is different than the fruits on the dice

For example:

Since the number on the dice is 4, players should look for the fruit that appears on the card 4 times. This fruit is a banana. Since banana is NOT one of the 2 fruits shown on the fruit dice, the first player to call "Banana" wins the card.

Setting #2 - The fruit on the card that corresponds to the number dice is one of the 2 fruits on the fruit dice

For example:

Since the number on the dice is 4, players should look for the fruit that appears on the card 4 times. This fruit is a banana. Since banana is one of the 2 fruits shown on the dice, players should NOT call "Banana"!

Instead, in this case, the first player to make the sound of the animal that appears on the animal dice wins the card.

Setting #3 - The two fruits that appear on the dice are identical

If the two dice show the same fruit, the players IGNORE the other 2 dice. The first player that calls the number of oranges on the card wins the card - in this case, the number is 8.

Tips

After rolling the dice players should:

1. Check if the fruits on the dice are identical. If they are, count how many times this fruit appears on the card and call this number.
2. If the fruits on the dice are not identical, check the number on the numbers dice and look for the fruit that appears that number of times on the card. If that fruit does not appear on the fruit dice, call the fruit name. If that fruit is one of the 2 fruits on the dice, make the sound of the animal that appears on the animal dice.

Wrong Call

If the first player to call was wrong, s/he must return one card (if s/he has any). That card is placed at the bottom of the pile.

End of the game

When no more cards remain in the pile, the players count the number of cards they collected. The player that has the most cards is the winner.
